## EDUCATION

### Kalinga Institute of Industrial Technology (KIIT)

(2022 to 2026)

CGPA: 7.82

### Jusco School Kadma, Jamshedpur

Class XII - PCM

Percentage: 80.6

### Jusco School Kadma, Jamshedpur

Class X

Percentage: 80.8

## INTERNSHIP EXPERIENCE

### Tata Steel Ltd. (Shavak Nanavati Technical Institute)

Apr 2025 – Jun 2025

Vocational Training Intern

Jamshedpur, India

- Analyzed industrial data handling protocols within **Information Security & Data Protection**.
- Designed and deployed the **Smart Material Gate Pass System**, automating entry/exit logging which reduced manual errors by 40%.
- Collaborated with cross-functional teams to enhance workplace security, developing key **consulting and stakeholder management** skills.
- [View Certificate](#)

## RESEARCH & GEN AI EXPERIENCE

### Generative Design for Personalized Fashion — Published in ICCCN 2025 (Springer)

Bhubaneswar, India

- Co-authored a research paper focusing on **Generative AI (Gen AI)** applications in the fashion industry.
- Proposed an AI-driven framework using **Generative Adversarial Networks (GANs)** and **Variational Autoencoders (VAEs)**.
- Analyzed 3D modeling techniques to create personalized, sustainable designs, demonstrating strong analytical skills relevant to **Technology Consulting**.
- [Link to Published Paper](#)

## TECHNICAL PROJECTS

### AI Voice Assistant (Jarvis) — Python, OpenAI API, NLP

[Source Code](#)

- Engineered an intelligent voice assistant integrating **OpenAI API (LLMs)** for natural language understanding.
- Implemented speech synthesis using **SpeechRecognition** and **gTTS** libraries to emulate conversational AI similar to Google Assistant.
- Automated real-time tasks including web navigation and dynamic information retrieval, showcasing proficiency in **Gen AI integration**.

### Portfolio Website — HTML5, CSS3, JavaScript

[Live Link](#)

- Developed a responsive digital portfolio with dynamic mobile navigation and interactive UI components.
- Implemented data-driven design principles to ensure cross-platform compatibility and optimal user experience.

## SKILLS

**Gen AI & Machine Learning:** Generative Adversarial Networks (GANs), VAE, OpenAI API, Large Language Models (LLM), Python

**Languages:** C, C++, Python, JavaScript, SQL, HTML, CSS

**Frameworks/Tools:** ReactJS, Tailwind, Git/GitHub, VS Code, MySQL Workbench

**Core Concepts:** Data Structures, Algorithms, OOPs, Database Management

## ACHIEVEMENTS & CERTIFICATIONS

- HackerRank SQL (Intermediate):** Certified for complex query writing and database management.  
[View Certificate](#)
- LeetCode:** Solved 150+ DSA problems.
- KIIT Merit Scholarship Holder:** Awarded for consistent academic performance.
